## The Most Cost Effective Shelf Power System Now, in a New Compact Design

The new SPS Mini is a miniature, Shelf Power System, that works with Hera's 24V LED lighting. The track has wood screws or magnetic backing allowing for easy installation in metal gondolas or wood. This system also features simple rotate and lock shelf plugs which aid in quick and easy re-merchandising.

## 24 VDC daisy Driver

**30 W**  
**75 W**  
**96 W**

Hera's constant voltage electronic driver is available in multiple wattages. Being able to daisy chain one driver to the next means you can install up to 1120' of LED to one quad outlet.
